

**Improve your operational workflow by integrating
your SICOM POS system seamlessly
with Paycor's Perform payroll solution.**

By choosing Paycor, you will receive award-winning software and service as well as the benefit of integration with your SICOM POS system.

Paycor's SICOM POS integration allows you to:

- Save time by importing time and attendance information directly into payroll. No need to rekey data!
- Eliminate costly errors that come from manually entering hours.

Take advantage of this integration by following these simple steps:

1. Inform your Paycor implementation consultant that you use SICOM's POS system.
2. Follow the instructions in our Import Guide to setup SICOM and deliver the specific data we need.
3. Leverage SICOM's payroll report to extract time data for each employee.
4. Simply drag the time file or select it from your desktop when you're ready to pay your employees.

Frequently Asked Questions

Will I have to manipulate the data in my file prior to importing it into Perform?

No. We have successfully imported time files from SICOM for many other clients. Follow our Import Guide to provide your data in a format that we support.

What if I need to make changes to the time data prior to importing?

You can always modify the data directly in the file prior to importing. You can also make changes to the employee's data in payroll after importing.

What if some of my locations use a different POS system?

We accept data from many of the leading POS system providers. Please inform your Paycor specialist of your needs and they will be more than happy to help.

What if I want to import data that is unique to my business?

Start by looking at our standard import process. If you do have unique needs, we have a team of professional services associates that can evaluate and accommodate custom requests.
